

RE: Clip and Earn programs for Education

The Avon School is requesting your help. By clipping the UPCs or labels from products that you already purchase, you can earn money for our school. **Best Choice Save-a-Label** program encourages us to clip the UPC barcodes off of their products. By giving them to the school for submission, the school can earn \$.03 per UPC. The **Loaves4Learning** program will provide \$.05 per UPC found on their products. The **Box Tops for Education** offers \$.10 per coupon. **Please note that the Box Tops program is phasing out the clip coupons and moving to scanning receipts with a mobile device. See attached information provided.** The **Our Family Direct Your Labels** program offers \$25 for every 500 labels returned. If we work together, these offers can certainly add up! The money earned will be used to offer incentives and assist in funding educational activities for our students. More information will be posted on the Avon School Facebook page, including a list of eligible products for the Loaves4Learning and Box Tops for Education programs. There are over 2,000 Our Family brand products and over 2,500 Best Choice brand products that can be used in their respective programs. Unfortunately, **the Campbell's Labels for Education** program has been **discontinued** so we can no longer collect and redeem them.

A collection box is available for labels in the main entry of the school. A collection box is also available at Ron's Market. Students may also bring labels to their classrooms. We look forward to participating in these programs and seeing the money earned used to benefit our students and their educational experiences.
